Sprint Plan #1

Group: Health Informatics 5

User Story	Task	Assigned to	Estimated Effort
Story 1	Defining the requirements	Everyone	4 hours
	Create the product backlog	Paul & Julian	2 hours
Story 2	Determining the datastructure	Jan & Robin	4 hours
	Determining how to parse the files	Everyone	4 hours

User Stories

Story 1

It should be clear which features our product must have / could have.

Story 2

A user should be able to give the files which should be saved so we can perform operations on the data.
